1 West Fourth Street
Cincinnati, Ohio 45202**

May 2005

Last Mailed Notice to Register for Bjork-Shiley C/C Heart Valve Legal Settlement Benefits

If you have a heart valve implant known as the Bjork-Shiley Convexo-Concave (BSCC) valve, you must be aware of the potential that the valve may develop an outlet strut fracture regardless of how long it has been working properly.

The class action settlement in *Bowling v. Pfizer* offers benefits for qualifying valve replacement surgery including payments of certain medical expenses (plus a \$38,000 lump sum payment), payments of certain documented lost income and extended disability benefits, and a compensation package for outlet strut fracture.

You must register to be eligible to receive important information and learn more about benefits available to you.

If you registered with Medic Alert or any other organization, you still need to register with the Claims Administrator. After you register, you'll get information including valve replacement benefit guidelines and what benefits are available to you, details on valve research being conducted, information about diagnostic services that may become available, information on what to do and symptoms to look for should your valve fracture, and any information regarding your individual BSCC heart valve.

Registration is free and you can register by letter, telephone, fax, e-mail, or online:

Mail:	Bowling Claims Administrator c/o Wayne Smith 525 Vine Street, Suite 2300 Cincinnati, Ohio 45202 U.S.A.	Telephone:	1-800-977-0779 Outside U.S./Can. +1-513-421-4415 (English only)
		Fax:	1-513-421-7696
		E-mail:	bowlingpfizer@fuse.net
		Website:	www.bowling-pfizer.com

Please do not pass up this opportunity to stay informed about the BSCC heart valve.
